

HOVER MOWER

RC190-M800 19" Cutting Swath

Ideal for mowing steep & hard to reach lawn areas

THE ULTIMATE IN MOWING MANEUVERABILITY

Cutting Blades

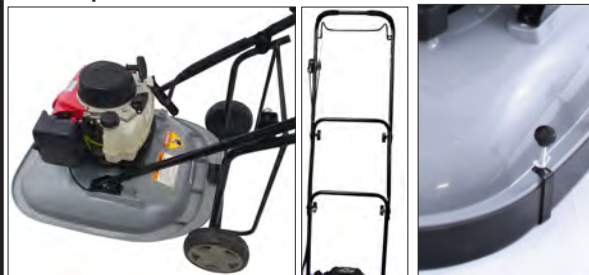

This lightweight yet powerful hover mower floats on a cushion of air and is designed to provide excellent cutting performance at steep angles for a wide variety of commercial, golf course and residential applications. It's extremely maneuverable as it can easily glide in multiple directions over grass surfaces and it mulches as it cuts so the fine clippings get to the soil surface.

The 52" handles move freely for an effective reach on sloped areas and near water lines. A convenient locking lever holds the handles in an upright position when not in use. An ergonomically designed grip provides comfortable and stable control while the engine stop lever is easily held and released for added safety.

OPTIONAL ACCESSORIES

Transport Wheels / 18" Handle Extension / Lift Kit

FEATURES & SPECIFICATIONS

ENGINE	Maruyama CER800U 2-Stroke 3.5 HP / 2.6 KW @ 4200 RPM	WARRANTY	Engine: 5 Years Non-Engine: 2 Yrs Residential 1 Yr Commercial
